

Environmental Policy

Quackers Out of School Clubs is committed to the protection of the environment through reducing pollution, emissions and waste.

We raise the children's awareness of environmental issues through discussions, projects, and day-to-day activities within the club.

Children and staff follow the Club's 'eco code':

- We turn off electrical equipment at the power source when not in use.
- We turn off taps after use and do not waste water.
- We recycle where we are able to.
- We do not drop litter.
